

Course Title: S-359: Medical Unit Leader

Course Details:

This course is designed to provide the skills and knowledge needed to perform in the role of medical unit leader (MEDL) on an incident or in an EOC. EMS personnel will be provided an introduction to the role and responsibility of the Medical Unit Leader in a large scale operation. This course will cover responsibilities from mobilization to demobilization, including planning and establishing the Medical Unit and Aid Stations, important principles of incident rehabilitation, risk assessment, managing non-urgent medical complaints of responders, and writing an ICS 206 and ICS 206 WF Medical Plan.

Working in a classroom environment, instructors with hands-on, real-world incident command experience will offer instruction in reading an Incident Action Plan, Establishing & Maintaining the Unit, Organizing and supervising the Unit, Documentation and Demobilization.

Topics include: gathering information, organizing the medical unit, supervising the unit, evaluation, documentation, and demobilization.

Objectives:

- Plan, staff, and manage the medical unit.
- How to integrate within an IMT under the Incident Safety Officer or Logistics Section Chief.
- Coordinate with other incident entities (AST/Taskforce, EOC, SEOC, MACG) as necessary.
- Provide emergency medical services to all personnel assigned to an Incident.
- Describe how to provide high quality patient care in austere environments.

When: October 20-22, 2021, 8a-4:30p (Wed. -Friday)

Where: Anoka County Recycling & Resource Solutions
Field Operations Building
1530 Bunker Lake Blvd NW, Andover, MN 55304
(Doors are open 7:15 AM-4:30 PM)
