Others Present

Greg Hayes
Jacob Kallenbach

1. Call to Order

Committee Chair, Dr. Jonathan Gipson, called the meeting to order at 7:02 a.m.

2. Roll Call

Dr. Gipson conducted the roll call.

3. Approval of Agenda

Motion made by Lick, seconded by Gipson to approve the agenda. Motion carried.

4. Approval of November 16, 2023 MMRTAC Minutes

Motion made by Lick, seconded by Gipson to approve the November 16, 2023 MMRTAC meeting minutes. Motion carried.

5. Old Business

A. Regional Replantation Contingency Plan

The regional replantation contingency plan document was discussed. The Committee mentioned the need to distribute this document across the Metro area, including the possibility of adding it to the STAC meeting agenda. The members of the committee also talked about making this document into a statewide agreement.

B. MMRTAC Applications for Appointments

Greg Hayes mentioned that the MESB needs to clean up the various lists of membership for the committee. Members may receive an application for the MMRTAC via email from Greg. Please fill out the “what” and “who” aspects of the application as it is just a formality and needs to go to the state for committee membership. If you have any questions about the process, please contact Greg.

6. New Business

A. Burnsville Emergency Response Recap

Hayes recapped the tragedy that occurred over the weekend at an emergency response event in Burnsville, MN over the weekend. Stop the bleed training coupled with mental health response work is important, and any support for EMS is necessary and should be strongly advocated for. The region is supporting Burnsville through the Memorial with EMS agencies helping cover their PSA and EMS operations at the Memorial.

7. Updates

A. STAC Update

The STAC meeting had multiple presentations. Positions and appointments that were open were shared and relayed to the group. The new trauma education modules are available for download and seem to be a solid resource. Level 3 and 4 criteria evaluations will occur soon and were discussed.

B. Peds Workgroup

There are no new updates as the group has not met.

C. Geriatric Workgroup – TQIP Presentation Review

The workgroup presented at TQIP and did well. Congratulations! The document, resources, and presentation itself is on the EMS website. If you need links or are unsure of where to find it, please reach out to Hayes and he will provide the details. The workgroup is now in the early stages of planning a new project topic.

D. Stop the Bleed in Schools Training

Members of the group continue to look for opportunities to do Stop the Bleed training within schools and universities. Some members of the committee also mentioned that Stop the Bleed training is also quite popular at gun ranges and often has good turnout and important impacts on those attending.

E. EMS to ED Handoff – MIST Format

The MIST documents and video are on the EMS website for viewing. There is no formal training, just use word of mouth to spread the format and documents/video. The committee mentioned that they would try to add an addendum to the back of the medical protocols to add this MIST format so more people could see. The MIST document will also be sent out to print for dispersion. If you need help finding the MIST information on the EMS website, please contact Hayes.

8. Local Updates – Hospitals, System, EMS

No new updates.

9. Adjournment

The MMRTAC Committee meeting adjourned at 8:26 a.m.

Radio Format for West MRCC

Initial MRCC Hail:

- Unit ID
- Patient Information/Medical Control
- Hospital Destination
- Triage Color (Red Trauma/
Red Medical/Yellow/Green)
- (If Needed) APS or L&D?
- **(If Needed) Short ETA

After Acknowledgement from MRCC:

- Age
- Gender
- Chief Complaint
- Patient Acuity (Red/Yellow/Green)
- ETA

***Wait for WMRCC to acknowledge report before switching Talkgroups*

***Patient name is required for patient tracking during major incidents when hospitals are notified.*

Red Patients Only

- Vital Signs
- Response to Treatment
- Mechanisim of Injury
- Patient Name / DOB
- Stemi-Alert Activation
- Stroke-Alert Activation
- Cardiac Arrest?
 - Initial Rhythm?
 - ROSC?
 - EKG Findings?

Patient Acuity

Red Medical/Trauma (Critical)

Yellow (Needs a Bed)

Green (Appropriate for Triage)

Pertinent Info

Is this a Stemi-Alert Activation?

Is this a Stroke-Alert Activation?

Is Patient on a Hold?

Is Patient going to L & D?

Is Patient going to Special Care?

Is Patient going to APS?

Is Security Needed?

Is a Translator Needed?

Are Isolation Precautions Needed?

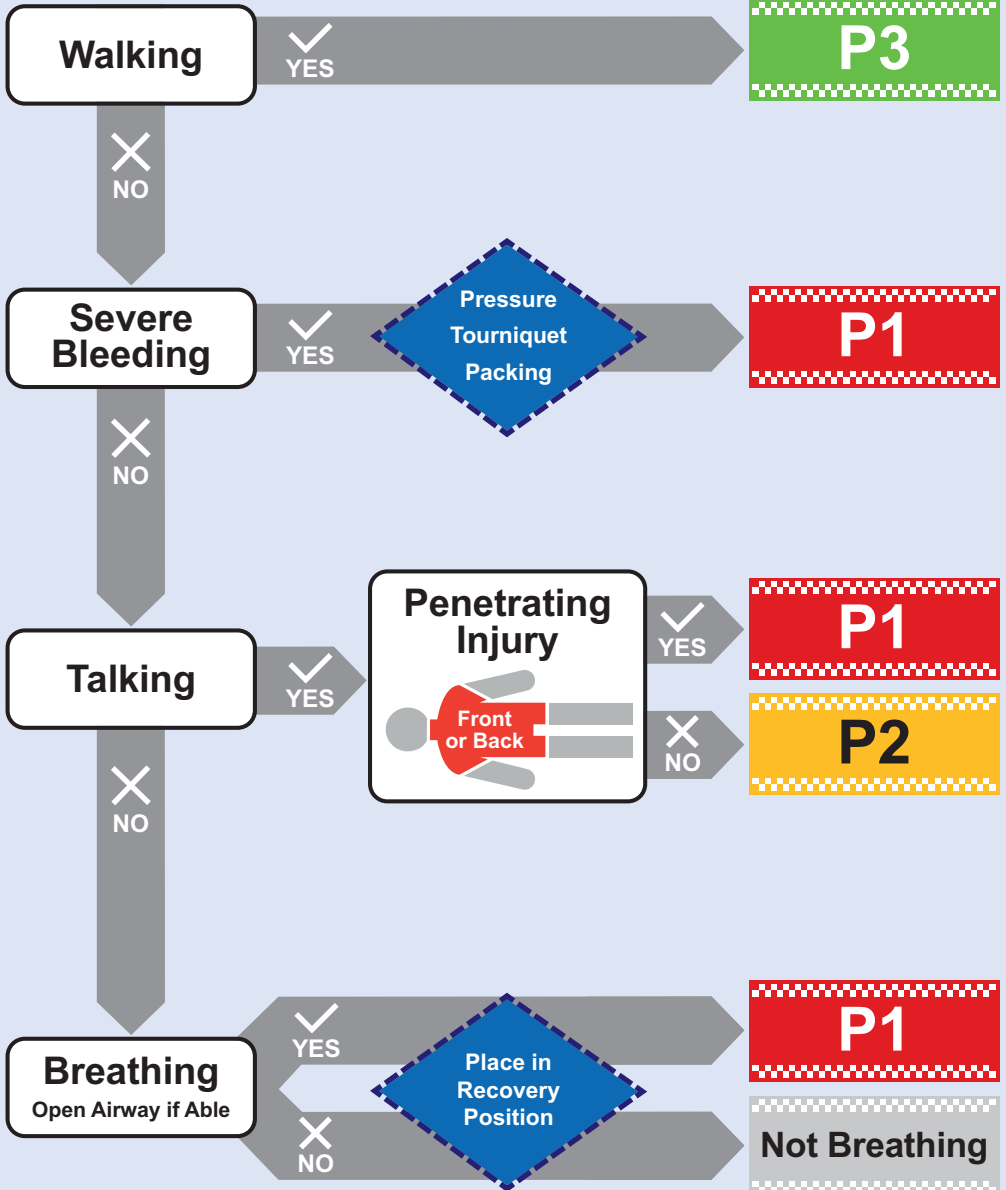

SMRCC - Outstate

WMRCC - Metro
